Baby's coming will be a time of rejoicing, and not of apprehension and fear, if Mother's Friend is used by the expectant mother in preparation of the event. This is not a medicine to be taken internally, but a liniment to be applied to the

body, to assist nature in the necessary physical changes of the system. Mother's Friend is composed of oils and medicines which prepare the muscles and tendons for the unusual strain, render the ligaments supple and clastic, aids in the expanding of the skin and flesh fibres, and strengthens all the membranes and tissues. It lessens the pain and danger at the crisis, and assures future health to the mother. Mother's Friend is sold at drug stores. Write for our Professor F. D. The most difficult task confronting the rallroad men was the grade through the Wilson canyon, and this now is completed. The railroad company has placed orders for new cars and other rolling stock, so as to be in shape by the time the road is open throughout-

> The connecting of the mines with rails is the most pressing task now before the Nevada Douglas and Mas-on Valley companies, for the mines are just about in condition to start producing the tonnage demanded by the smelting contracts already nego-tiated. Mr. Orem says it will not be long until his company finishes the installation of the new machinery over the incline, which will obviate the necessity of working through the vertical shaft of the Ludwig group, now down to the 400-foot level. The incline extends to the deepest levels from the surface now.

The building of an airodome or open air theater for moving pictures and vaudeville and possibly musical comedy, it is stated, is receiving at-tention of local capitalists who will join with one or two eastern capitalists.
